I. APPLICATION INSTRUCTIONS

PLEASE READ ALL THE INSTRUCTIONS BEFORE FILLING OUT THIS APPLICATION!

Your application will be reviewed to ensure all required information has been provided and that the application is complete. Incomplete applications or those submitted after the application deadline will not be considered for funding.

GENERAL

This is an interactive form and designed to be filled out in Microsoft Word. Use the Tab key to move between fields or click directly in a text box to begin entering your information. Tab fields have been added to the first seven pages of the document to improve the navigability of the form.

APPLICATION CHECKLIST

- Please make sure all items listed are included with the application. The checklist signature page should be included with all other application materials.

APPLICANT INFORMATION

- Identify if the MPO area or HSTP region where the project is proposed to be implemented.

PROPOSED PROJECT

- Please be sure to identify each component of the project for which funding is being requested (i.e., This project is requesting capital funding for a new mini-van and dispatching software for same-day reservations, and operating funding to hire a driver and run the service).
- To determine the estimated annual number of trips generated, use one of the following equations which best suits your project (please note that trip is defined as each time a passenger boards):

If estimate is based on trips per hour:

No. of trips per hour X hours of service operated per day X no. of days service is operated per year

Example: 3(trips/hour) X 13(hours/day) X 312(days/year) = 12,168 passenger trips generated per year

If estimate is based on trips per day:

No. of trips per day X no. of days service is operated per year

Example: 8(trips/day) X 220(days/year) = 3,005 passenger trips generated per year

VEHICLE INVENTORY

- This inventory is only required for applicants that are not current 5311 or 5307 recipients.

PROJECT BUDGET

- Please manually total the project budget and review the required match calculations: All numbers are to be entered manually.
- The match requirement for capital projects (including mobility management) is 80% federal / 20% local.
- The match requirement for operating projects is 50% federal / 50% local of the net project cost. Revenues are strictly based on fares generated by the project. Please note that revenues are not an eligible operating expense and should not be included in the net operating cost of the project.
- For operating projects, outline the costs for the duration of the project (1-3 years). When estimating your cost over the three-year period, be sure to factor in cost escalations. If requesting funding for less than three years, please attach documentation stating how service will operate without additional grant funds.
- Please identify all 'other expenses' (under operating budget) in the space provided.
- Total Project Costs and Local Match must be entered manually (if you are not declaring use of TRCs)

SOURCES OF LOCAL MATCH

- Indicate all sources of local match and status. Status could be noted as secured or dependant upon grant approval

SCALABILITY

- Describe whether or not the project for which you are applying can be implemented on (a) a more limited scope or if it can (b) be implemented in phases. This question will help the selection committee decide on funding amounts for the projects selected.

V. PROJECT APPLICATION

A. Applicant, Existing Services, and Service Area

1. Please provide a brief description of the applicant and its background with implementing this type of service

The Madison County Mass Transit District (MCT) is a municipal corporation organized pursuant to the Local Mass Transit District Act (70 ILCS 3610) of the Illinois State statutes. MCT currently maintains a fleet of 111 buses and operates 23 fixed-routes, with an average annual ridership of 2.3 million. MCT also operates a curb-to-curb Paratransit service for the elderly and disabled known as Runabout. With more than 20 years of experience in: shuttle service design and implementation and vehicle procurement, inspection and maintenance, MCT is more than capable of developing, implementing and operating the bus route that is referenced in this application.

2. Provide a brief description of the applicant's existing services.

MCT provides 23 fixed-route public bus routes, Paratransit service for the disabled and elderly, operates RideFinders, the rideshare program for the entire St. Louis region and has developed more than 100 miles of scenic Madison County bikeways. Working in conjunction with the other St. Louis area organizations, MCT provides an important link in the chain of seamless regional transportation services.

3. Provide a description of the service area. Attach any maps if necessary.

MCT's fixed-route service area encompasses sixteen (16) out of twenty-four (24) townships in Madison County, Illinois and covers four hundred eighty-two (482) of the county's seven hundred twenty-five (725) square-mile geographic area. MCT also operates the Runabout Paratransit curb-to-curb service for the elderly and disabled, which provides life-sustaining transportation for thousands of Madison County residents in all twenty-four (24) townships in Madison County and in a service area spanning 1,200 square miles.

The fixed-route service area includes the rural townships in the U.S. 40 corridor as well as the more developed townships in the western and central areas of the county. Major cities served by MCT are: Alton, Bethalto, Collinsville, Edwardsville, Glen Carbon, Godfrey, Granite City, Highland, Madison, Troy and Wood River.

Please see attached map for details.

B. Proposed Project

1. Describe the proposed project, indicating the specific service to be provided, to implement, support, or maintain transportation service. This should include how service will assist low income workers with transportation options to job sites and employment related activities or serve in a reverse commute capacity. **Be sure to identify each component of the project by the funding requested. Be sure to identify each component of the project by the funding requested.**

This application seeks funding to purchase three (3) heavy duty transit vehicles to operate 30 minute frequency on the #4 Madison – Edwardsville from the MCT Granite City Station to the MCT Edwardsville Station. The upgrade to 30 minutes was made in May 2008. The route directly serves the low income communities of Madison and Granite City as well as Edwardsville, the seat of county government and the home of Southern Illinois University (SIUE). This route connects low income workers with employment in Downtown Edwardsville and the IL-157 corridor of Edwardsville where there are restaurants, offices and other retail which require support staff. The service also connects passengers to Southwestern Illinois College providing access for both students and full and part time on-campus employees.

2. Identify the number of estimated individuals with low or limited incomes to be served and describe how this estimate was derived.

Data from the 2000 US Census Bureau estimates that in the three communities of Edwardsville, Granite City, and Madison, there are approximately 6,200 individuals, or 10.96% of the population who are considered at or below poverty level.

3. Identify the number and locations of employers that have been contacted to be served or how the project will increase accessibility of target population to employment / employment opportunities.

Major employers on this bus route that MCT has contacted and provided information and or held a transit fair at their site include the following: Madison County Administrative Offices in Downtown Edwardsville, the Bank of Edwardsville, Southern Illinois University Edwardsville, Southwestern Illinois College and Gateway Regional Medical Center.

Smaller businesses that employ low-skill level, low income employees that are also located on this bus route include: AutoSpa, Imo's Pizza, KFC, Aldi's, US Bank, Illinois Electric Works, Walgreens, Farm Fresh, Country Hearth Inn, Sonic, Jimmy John's, Bull & Bear, Scott Credit Union, Sergeant Pepper's, Bully's, McDonald's, Gas Mart, Wendy's, Shenanigans, Subway, Wang Gang, MotoMart, Coldwell Banker, Meridian Village, the Comfort Inn, Laurie's Place, Artisan Bakery, Bigelo's Bistro, Fiona's Café, AfterWords Books, Evermore Gallery and many others.

4. Estimate the number of one way passenger trips per year this service will generate. A trip is defined by each time an individual passenger boards.

In FY 2008 when MCT operated 60-minute service on the #4, there were 102,244 boardings reported. In FY 2009, with the implementation of 30-minute service on the #4, MCT reported 137,023, an increase of 34%.

5. Identify the service area to be covered by the project (attach maps if necessary).

This bus route serves the communities of Madison, Granite City and Edwardsville.

D. Responsiveness to Project Selection Criteria

1. Describe how the project responds to one or more of the strategies identified in the regional HSTP. This includes service gaps, challenges of the project area, or other issues:

Maintaining Current Non-Duplicative Mobility Services: MCT's entire fleet of fixed-route buses has passed its FTA-mandated useful life expectancy. For MCT to continue operating this and other MCT bus routes it is critical that funding be received for replacement buses. With an expired fleet, it will be difficult to maintain existing service levels for transportation-disadvantaged individuals in the Madison County area. MCT is currently under contract with Gillig for a large vehicle procurement, to which these vehicles could be included.

Enhancing Mobility: This project has expanded transit access for transportation-disadvantaged groups, by providing greater frequency to employment centers, Southern Illinois University Edwardsville (SIUE), Southwestern Illinois College (SWIC), shopping areas, medical facilities in Granite City and Edwardsville and other areas for social and recreation. In addition to these destinations, the route serves Title VI neighborhoods in both Granite City and Edwardsville.

2. Describe how the project demonstrates coordination among local jurisdictions, interested stakeholder organizations, and other agencies. Coordination can include joint planning or purchasing, sharing vehicles, dispatching, scheduling, training or maintenance, or coordinating client trips.

As the Madison County Courthouse and Administration building are located at one end of this route, Madison County government has eagerly partnered with MCT in disseminating information about this route and publicly posting timetables. At the Granite City end of the route, passengers can travel to MetroLink stations where MCT has partnered with Metro, the St. Louis and St. Clair County service provider. By maintaining vehicles and tracking ridership for smaller agencies in these communities, MCT frequently coordinates trips with the Edwardsville Senior Center and the Granite City Township shuttle.

- a. Indicate how other entities will be involved in coordination efforts and/or the project. Letters of support can be included as attachments to the application

Two additional partnerships were forged with SIU Edwardsville and Southwestern Illinois College. SIUE has an enrollment of 14,000 students and SWIC has an enrollment of 2,289 students. Transit fairs are held at both sites on multiple occasions throughout the year and these institutions assist in distributing information about the route to students, faculty and staff. SIUE sells monthly passes at the on-campus Information Center and MCT has an agreement with SWIC that any students, faculty or staff with a SWIC ID ride for free.

3. Describe your agency's ability to manage the project, including its financial, human resources, and institutional capabilities. Please include a description of staff and years of experience.

As indicated on a previous page, MCT has more than 20 years of experience in: shuttle service design, implementation, vehicle procurement, inspection and maintenance. MCT is more than capable of developing, implementing and operating the bus route that is referenced in this application and sustaining it indefinitely.

The agency has more than 200 full-time employees and 66 part-time employees. Key personnel include: MCT Managing Director, Jerry Kane, with more than 25 years of experience. Seven full-time directors on staff oversee the following areas: Accounting (20 yrs), Administration (15 yrs), Fleet (20 yrs), Marketing & Planning (6 yrs), Fixed-Route Operations (15 yrs), Management Information Systems (20 yrs), Engineering (15 yrs) and RideFinders (10 yrs). Each director oversees the appropriate number of support staff to fulfill the respective duties of his or her department.

4. What efforts have been undertaken to identify and obtain local funding for this project? What local funding sources have been committed to the project? (Attach documentation if necessary).

MCT has committed local sales tax revenue to paying the local match for this grant.

5. Describe how this new service will be promoted / marketed to potential users.

In addition to a news release sent to all local media, MCT promoted the addition of 30 minute frequency on its website, held a variety of transit fairs at appropriate employment centers and placed posters in affected areas. Initial marketing efforts have proven successful as ridership and awareness of the service have both increased.

6. Briefly describe the new ideas, new technologies, innovative partnerships, creative funding sources, or other characteristics of the project that make it an innovative solution that responds to unmet transportation needs, and how the idea can be replicated elsewhere in the state.

Innovative use of Technology: MCT has initiated an e-news advisory service to alert passengers on this and other bus routes of service changes, route deviations, etc. Currently more than 750 riders are registered for this free service. MCT is also in the process of creating a Mobile website that is accessible for persons using PDA devices.

Service Design: By increasing frequency to and from timed transfer stations in Edwardsville and Granite City, passengers have access to communities throughout Madison County and direct service to MetroLink and employers in St. Louis. In addition, the #4 was designed as a blended route, serving both commercial areas, neighborhoods, institutions with door-side service but also acting as a cross-county bus and traveling on highways for fast service from community to community.

Innovative Partnership: Initiated just after the increase in frequency on this route, MCT began distributing more than 20,000 free summer youth passes to all Madison County 7th – 12th graders, allowing them to ride for free an unlimited number of times for three months in the summer (Memorial Day to Labor Day). Granite City High School, Coolidge Middle School, Lincoln Middle School are all located directly on the route of the #4.

7. Describe your agency's involvement in the local transportation planning process.

MCT is integral to the local transportation planning process and participates at every level. MCT Manager of Paratransit Operations Susan Thomas serves as Chair of the Region 9 HSTP Committee which prioritizes regional transportation goals for rural areas. MCT works closely with the MPO, East-West Gateway Council of Governments, in setting the regional transportation agenda, identifying specific needs and finding appropriate solutions.

Perhaps MCT's greatest contribution to the local transportation planning process is that it maintains vehicles and tracks ridership for 10 Madison County social service agencies throughout the county that complement and expand MCT's fixed-route and Paratransit services. Those agencies are: Alton YWCA, Edwardsville Senior Center, Bethalto Seniors, Challenge Unlimited, Collinsville Township, Glen Carbon Seniors, Granite City Township, Senior Services Plus in Alton, St. Joseph's Friends Van in Highland and Tri-City Association for the Handicapped in Granite City.

Section 5309 note, to finance the cost of leasing any capital asset until it undertakes calculations demonstrating that it is more cost-effective to lease the capital asset than to purchase or construct similar assets;
- (2) It will complete these calculations before entering into the lease or before receiving a capital grant for the asset, whichever is later; and
- (3) It will not enter into a capital lease for which FTA can only provide incremental funding unless it has the financial capacity to meet its future obligations under the lease in the event federal assistance is not available for capital projects in subsequent years.

Dear Mr. Kane:

It is with enthusiasm that I write this letter in support of your Job Access Reverse Commute application for acquiring three vehicles to operate the #4 Madison – Edwardsville route – a bus route that I consider to be one of the most critical links in your fixed-route system.

This bus route not only travels in the low income areas of Granite City and Madison, it provides direct service to Southern Illinois University Edwardsville (SIUE), Southwestern Illinois College (SWIC) and serves the growing commercial and residential areas in Edwardsville as well as the county government center.

By creating more frequent trips on this route, MCT is linking unemployed and low income Madison County residents with two of the largest employers in the county (SIUE and SWIC). The increased frequency also creates more opportunities for these individuals to access jobs in the IL-157 corridor and Downtown Edwardsville, where a growing number of restaurants, offices and retail require a large number of support staff.

At a time when governments at all levels are working diligently to stimulate the economy, MCT continues to be the foundation of economic growth and access to opportunity in Madison County. Bus routes like the #4 are doing exactly what the JARC program hopes to accomplish, bringing low income residents to jobs and to educational institutions. It is my hope that the award committee considers these factors as they review this application.

Thank you for your work in delivering safe, affordable and sustainable transportation services for Madison County, Illinois.

Respectfully,

Dear Mr. Kane:

As Vice-Chancellor for Student Affairs at Southern Illinois University Edwardsville (SIUE) I am well acquainted with the off-campus employment needs of our students as well as the entry-level employment opportunities that are available on this campus. In both cases, frequent transit service from different areas of Madison County to SIUE is critical to their success.

For these reasons I am pleased to write this letter in support of Madison County Transit's (MCT) application for a Job Access Reverse Commute grant. This grant will enable MCT to obtain vehicles for the #4 Madison- Edwardsville bus route. By traveling to and from SIUE every 30 minutes, and providing access to Downtown Edwardsville, University Pointe Commercial Center, Granite City, and other areas, this bus route is possibly one of the most important services that MCT provides to the campus.

Many students, faculty and staff at SIUE take advantage of MCT's affordable transportation options every day. In some cases these individuals would not have access to educational or employment opportunities without the aid of transit. In this way, MCT has facilitated empowerment for individuals affiliated with SIUE who might otherwise be at a disadvantage. Thank you for your efforts in providing these services.

Sincerely,

Dear Mr. Kane:

With this letter, I hope to convey my gratitude for the services that Madison County Transit provides to Southwestern Illinois College and offer my support for MCT's pursuit of the Job Access Reverse Commute grant, which would fund three buses to operate 30-minute service on the #4 Madison-Edwardsville to the Sam Wolf Campus of SWIC in Granite City.

With 30-minute service on the #4, students, faculty, and staff are afforded greater flexibility when traveling to and from the SWIC campus. This high level of service creates opportunities for low income students, enabling them to further their education. Since all SWIC students and staff are provided with a bus pass that allows unlimited travel on MCT bus routes, they are able to connect with St. Louis and multiple communities in Madison County and St. Clair County for free. On campus, I have seen an increase in ridership and have been made aware of increasing support for MCT's bus service.

MCT will continue to have my support in the expansion of their public transportation system.

Sincerely,
